2021 EARTH DAY EVENT RESOURCES
Who CAREs? A Conversation on Feminist Climate Action
Women’s Earth Alliance + Sierra Club

WHAT IS THE MOUNTAIN VALLEY PIPELINE?

The Mountain Valley Pipeline (MVP) is a proposed 303-mile pipeline from West Virginia to Virginia that is intended to carry fracked gas from the Appalachian Basin. The proposed Mountain Valley Pipeline (MVP) Southgate Extension would continue an additional 70 miles from Chatham, Virginia into central North Carolina so that the gas can eventually meet up with other lines and be exported to overseas markets. It’s endangering the water supply of the community, collecting violations from acts like the Clean Water Act and Endangered Species Act, and infringing on Indigenous rights.

Action Items
- Learn more about the MVP Pipeline in this video.
- Sign up to join the MVP Pipeline Walk on May 2nd, 2021 (Facebook Event).
